OVERVIEW

BF-CM626S is a compact and smart PoC two-way radio that offers nationwide coverage over 4G/LTE networks for your PTT communications. The user can enjoy license free nationwide radio communications. With a battery capacity of 5200mAh, BF-CM26S can easily meet the battery needs of long day operations.

HIGHLIGHTS AND BENEFITS

Diverse Network Coverage: 4G LTE, GSM, WCDMA, Wi-Fi

4G networks delivers a higher data transfer rate and reduced latency, and thus enable the user to communicate with unprecedented speed and efficiency. Moreover, GSM, WCDMA and Wi-Fi networks offer the most dynamic options for your PTT communications.

Built-in Bluetooth

With a paired bluetooth accessory the user can enjoy wireless PTT half&full duplex communications for handsfree operations.

Talker Priority (Supervisory Override)

A radio with higher level can interrupt communications between radios with lower levels, giving higher priority to senior workers.

Dispatch Application

BeIFone PoC radios come with an optional dispatch application that allows managers to track every worker' s location in real-time and can monitor and dispatch with ease.

Real-time Radio Status

This function allows the user to know whether another user is available or not with the real-time presence indicator--green for "Available" to talk while red for "Do Not Disturb" (DND).

Over-the-air Programming

The user' s PTT contact book is preset via over-the-air programming, which makes management easier. And users can better concentrate on the mission.
