Specifications

General	
Working Voltage	3.7V
OS	Linux
Support Network System (the rest of the band can be customized)	FDD-LTE:B1/B3/B5/B8; WCDMA: B1/B8; TDD-LTE: B38/B39/B40/B41; TD-SCDMA:B34/B39; EVDO/CDMA:BC0; GSM:900/1800MHz
GPS	Support, for optional features
Battery Capacity	3000mAh Note: Battery life depends on the network environment
Dust& Water Proof	IP54
Temperature	Operating Temperature: -20℃~+60℃ Storage Temperature: -40℃~+70℃
Memory	4GB (EMMC) +512MB (DDR3)
Support Group	2000
Interface	Sim card *2 (micro sim) /3.5mm earphone jack *1
USB	Micro USB (For data transmition and battery charge)
Maximum Speed	Uplink speed: 50Mbps/Downlink speed: 150Mbps
Languages	Chinese/English/Support Customization
Dimensions	57(L)X30(W)X115(H)mm
Weight	117g (battery included)
Humidity	5%~95% relative humidity

Push-to-talk over Cellular

BF-CM629 is a delightfully small and compact PoC handheld radio that offers nationwide or worldwide coverage over 2G/3G/4G LTE networks for your PTT communications. BF-CM629 allows the user to use dual SIM cards to deliver more versatility and flexibility. The user can switch between operators, to be always on the advantageous side. It is a cost-effective choice for those who want to enjoy license free nationwide radio coverage.

A Long Battery Life

Dual SIM Cards

Multiple Charging Modes

Individual, Group and All Calls

Built-in GPS (Optional)

Push-to-talk over Cellular

Highlights

Diverse Network Coverage: 4G LTE, GSM, WCDMA

BF-CM629 supports a wide range of network choices including 4G networks, which deliver a higher data transfer rate and reduced latency, and thus enable the user to communicate with unprecedented speed and efficiency. BF-CM629 enables the user to enjoy nationwide license-free PTT communications.

Dual SIM Cards

This feature allows the user to use two SIM cards. The user can switch between different operators to ensure constant connectivity.

Private Call, Group Call, and All Call

The versatile calling functions bring more efficiency to your teamwork.

Low Battery Alert

There is a battery bar on the screen showing the power status of your radio. Also, when the battery gets too low, an alert will go off, reminding the user to recharge in time.

GPS Positioning (Optional)

When registered on a platform, BF-CM629 will automatically and consistently report its location information to the dispatch center, making it easy for the commander to track any terminal in the system. Dispatch efficiency is thus greatly improved.

Features

- PTT Over 4G LTE Networks
- Dual SIM Cards
- Versatile Calling Functions:
 Individual, Group, All Call
- High Quality, Clear Audio
- Nationwide Coverage
- GPS (Optional)
