

OG308

ULTRA-SLIM

Commercial DMR Radio

BelFone
Communications for Efficiency and Safety

PRODUCT OVERVIEW

OG308 adopts a lightweight and modern design, bringing new possibilities and trends in the commercial radio field. Apart from the fashionable and simple appearance with a sense of technology, it also has excellent communication performance such as AI noise reduction, data encryption, and channel copy, etc. as well as special features such as APP programming, Bluetooth application, voice broadcast, etc. OG308 is equipped with 2200mAh battery, which can be used continuously for 16 hours, bringing the ultimate communication experience for commercial users.

Ultra-Slim Design

OG308 adopts a lightweight design with only 15mm and 140g. The overall appearance of fashionable simplicity and sleek lines effectively reduces the radio's heavy feeling and enhances its portability, even if a child can easily operate it.

Hidden Display

OG308 adopts the integrated design of the rest screen, equipped with an LED matrix display to balance the aesthetic. Meanwhile, it can more intuitively show the terminal status, even if the outdoor activities or messy light scenarios can still easily recognize the working status.

AI Noise Reduction

OG308 uses the AI algorithm to recognize and separate the human voice and noise, processing audio signals in real-time and filtering the environment's noise effectively, to guarantee crystal clear communication in various complicated scenes.

Wide Coverage

OG308 is equipped with high-power RF, which can not only realize the urban calls but also ensure the clear and stable communication effects in various complex environments. No matter in outdoor adventure, construction site operation, or shopping mall dispatching, OG308 always can meet the user's needs for communication distance and clarity to achieve barrier-free communication.

Channel Copy

Having a farewell with the complicated frequency matching via computer, OG308 can copy another frequency channel within seconds with the channel copy function, which can rapidly organize multi-user communication at the same time under the same frequency.

Emergency Alarm

During emergencies, the emergency alarm of OG308 will send the alerting signal and the locations in time to guarantee personnel safety and make a rapid and coordinated response in critical situations.

Bluetooth Connection

OG308 supports Bluetooth 5.0, which allows you to connect mobile phone APP for frequency adjustments and terminal settings. Bluetooth wireless earphones, headsets, and other peripherals are also used for audio transmission and real-time calls.

VOX

OG308 is designed for situations like driving vehicles, outdoor activities, or hands needed to operate other devices. After turning on VOX, users can still talk with no need to press the PTT button, so users can free their hands and communicate more freely.

GENERAL FUNCTIONS

- Voice Broadcast
- Squelch Level
- Radio(FM)
- Busy Channel Lockout
- IP54 Protection
- Battery Indicator
- Compatible Digital/Analog
- Power Switching
- Scanning/ Monitoring
- Private Call/ Group Call/ All Call
- Type-C Charging
- Silence Unknown Calls

SPECIFICATION

General		Receiver	
Frequency range	UHF:400-480 MHz	Digital sensitivity	5% BER: 0.25 uV
Channel capacity	≤ 125	Analog sensitivity	0.25 uV (12 dB SINAD)
Zone	1	Intermodulation	65dB
Channel spacing	12.5KHz/25KHz	Adjacent channel selectivity	60 dB
Operating voltage	DC 3.8V	Spurious response rejection	70 dB
Battery capacity	2200mAh	FM noise	-40dB
Battery Life (5/5/90)	Digital 15 hours Analog 10 hours	Audio response	+1/-3 dB
Frequency stability	± 0.5ppm	Audio output power	0.5W
Antenna impedance	50 Ω	Maximum audio output power	1W
Current	Receiving: 400mA Transmitting: 2500mA	Rated audio distortion	3%
Dimensions (L × W × H)	52.7 (L) *16.6 (W) *115 (H)mm	harmonic suppression	≤ -70dBm
Weight	135.6g (including battery)	IF rejection	≤ -70dBm
Bluetooth (optional)	BT5.0	co-channel rejection	≤ -70dBm
Transmitter		image rejection	≤ -70dBm
RF output power	≤ 4W	Conducted radiation	≤ -57dBm
4FSK modulation	12.5kHz data only: 7K60FXD 12.5kHz data and voice: 7K60FXE	spurious radiation	≤ -57dBm
FM modulation	12.5 kHz: 8K50F3E; 25 kHz: 16K Φ F3E	Blocking	> 84dBm
Modulation limiting	+/- 2.5kHz @ 12.5kHz; +/- 5kHz @ 25kHz	Environmental	
FM noise	-40dB	Operating temperature	-20°C—+60°C
Transmission spurious	-36 dBm ≤ 1GHz / -30 dBm ≥ 1GHz	Storage temperature	-30°C—+85°C
Adjacent channel power	≤ -60dB	Dustproof and waterproof	IP54
Audio response	+1/-3 dB	STATEMENT:	
Digital protocol	DMR	1. Due to continuous product improvement, the technical parameters and functional features may not be consistent with the actual product. Please refer to the actual product. If there is any change, we will not notify you separately. Please understand.	
Free time slot power	≤ -57dBm	2. If you have other questions about this product or the content of this document is not detailed enough, please contact us.	
Digital voice coder type	AMBE3000
